I have a personality that is constantly looking forward and solution-oriented. I am a full-time learner who does not hesitate to get help when dealing with problems and takes care to be a good listener while receiving help. I also hold the AWS Cloud Practitioner certification and am actively preparing for the ISTQB CTFL exam.

EDUCATION

Bachelor of Science (B.S.) - Computer Technology and Information Systems

Sep 2020 - June 2025 (Expected)

Ihsan Dogramaci Bilkent University, Ankara

EXPERIENCE

Quality Assurance Mentee

October 2024 - December 2024

Commencis, Remote

- Gained hands-on experience in manual and automated testing methodologies.
- Enhanced practical skills in writing and executing unit tests to ensure code quality.

Business Analyst Intern

August 2024 - September 2024

Meteksan Defence, Ankara - Turkey

- Managed a project focused on auditing IT equipment assigned to personnel.
- Developed and implemented a system to monitor the allocation of IT assets with SAP.
- Managed a project overseeing nearly 1,600 IT assets assigned to personnel and enhanced accuracy in tracking IT equipment, achieving a 95% accuracy rate.

Junior Software Designer Intern

Sep 2023 - Jan 2024

Orion Innovation, Remote

- Developed a WebRTC module frontend using React with TypeScript.
- Engaged in problem-solving within the TypeScript environment to ensure code reliability.
- Utilized Figma for visual design and prototyping, facilitating communication with the technical manager before project initiation.

Software Development Intern

Aug 2023 - Oct 2023

TUV Austria Sybercode, Remote

- Enhanced PwnDoc Pentest Report Generator, contributing to both frontend and backend development (Vue.js, Vite, Tailwind CSS, Node.js, Express.js, MongoDB).
- Ensured reliability and performance standards in QA and testing using Selenium.

UI Developer Intern

Jun 2022 - Aug 2022

Jotform, Ankara - Turkey

- Led the design implementation of the URL Redirection Tool with a dedicated team of 12 software developers, focusing on preventing URL mismatches and enhancing UX.
- Applied developer-centric design principles for usability and efficiency.
- Collaborated on detailed documentation, facilitating future development opportunities.

Co-Founder

Feb 2021 - Aug 2023

Petbilir, Ankara - Turkey

- Led a 6-person team, balancing strategic decision-making, team collaboration, programming, and operational execution.
- Spearheaded the adoption of technologies (React, Node.js, Express, TailwindCSS)
- Secured two awards from Bilkent and Hacettepe universities, resulting in a dedicated office space and access to an exclusive investment network.
